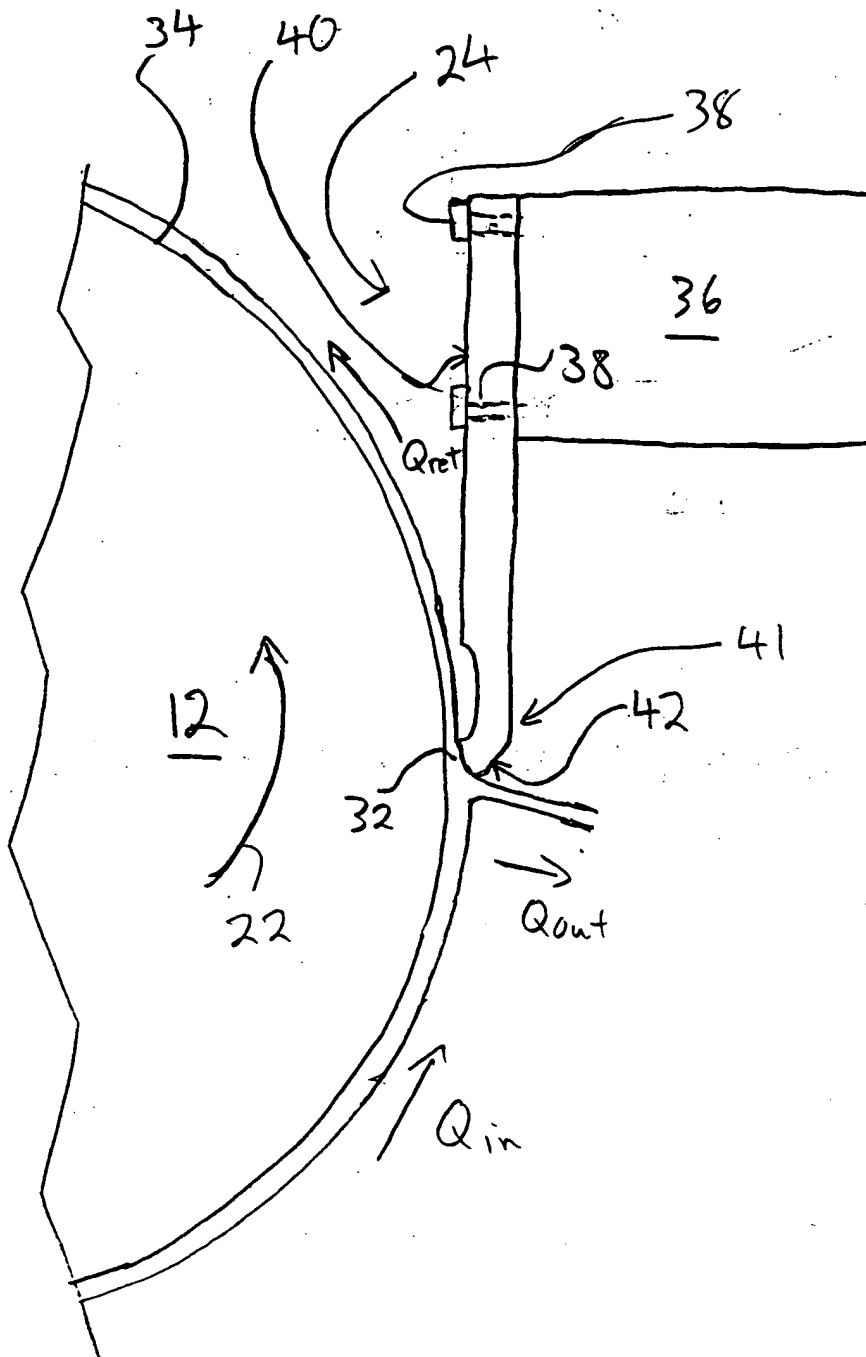

Fig. 2

A hand-drawn schematic diagram of a fluid control device, possibly a valve or a pump assembly. The diagram includes the following labeled components and flow paths:

- 24**: A vertical line on the right side, possibly a wall or a guide.
- 34**: A curved line on the left side, possibly a seal or a guide.
- 41**: A curved line on the right side, possibly a seal or a guide.
- 42**: A curved line on the right side, possibly a seal or a guide.
- 48**: A horizontal line on the left side, possibly a base or a support.
- 50**: A curved line on the right side, possibly a seal or a guide.
- 52**: A curved line on the right side, possibly a seal or a guide.
- 53**: A curved line on the left side, possibly a seal or a guide.
- 54**: A curved line on the right side, possibly a seal or a guide.
- 56**: A curved line on the left side, possibly a seal or a guide.
- 58**: A curved line on the right side, possibly a seal or a guide.
- 60**: A curved line on the right side, possibly a seal or a guide.
- 62**: A curved line on the right side, possibly a seal or a guide.
- Q_{ret}**: A flow path indicated by a dashed arrow pointing upwards from the bottom left.
- Q_{out}**: A flow path indicated by a dashed arrow pointing upwards from the middle left.
- Q_{out}**: A flow path indicated by a dashed arrow pointing upwards from the bottom right.
- 12**: A label with an arrow pointing upwards, possibly indicating a direction of flow or a specific component.
- 35**: A label at the bottom right, possibly indicating a specific component or a flow path.

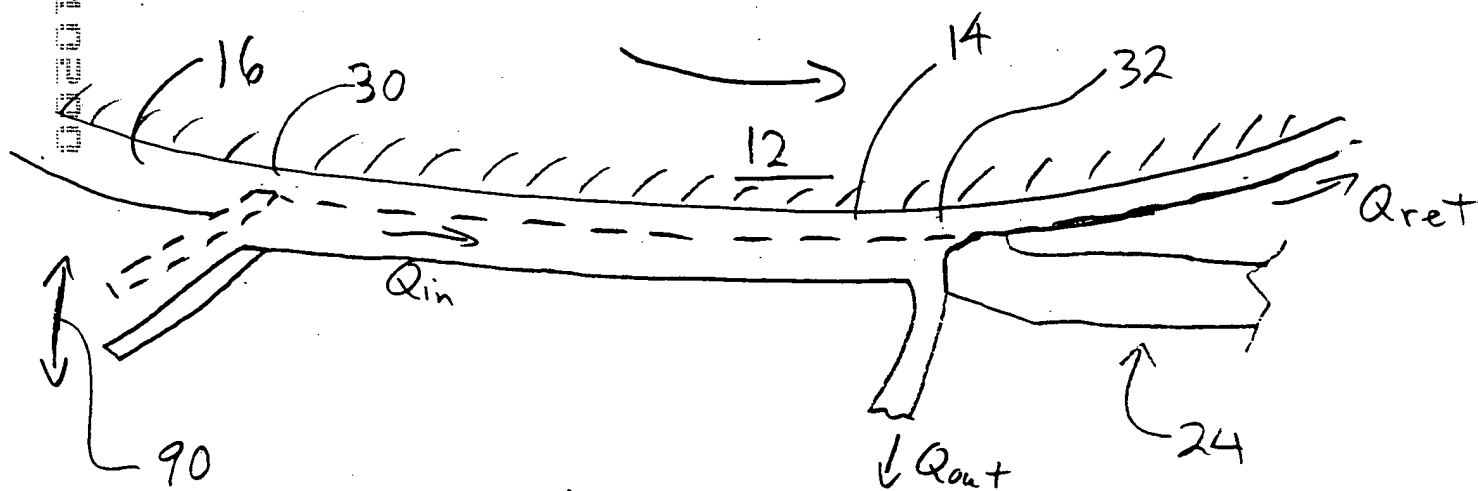

Fig. 8

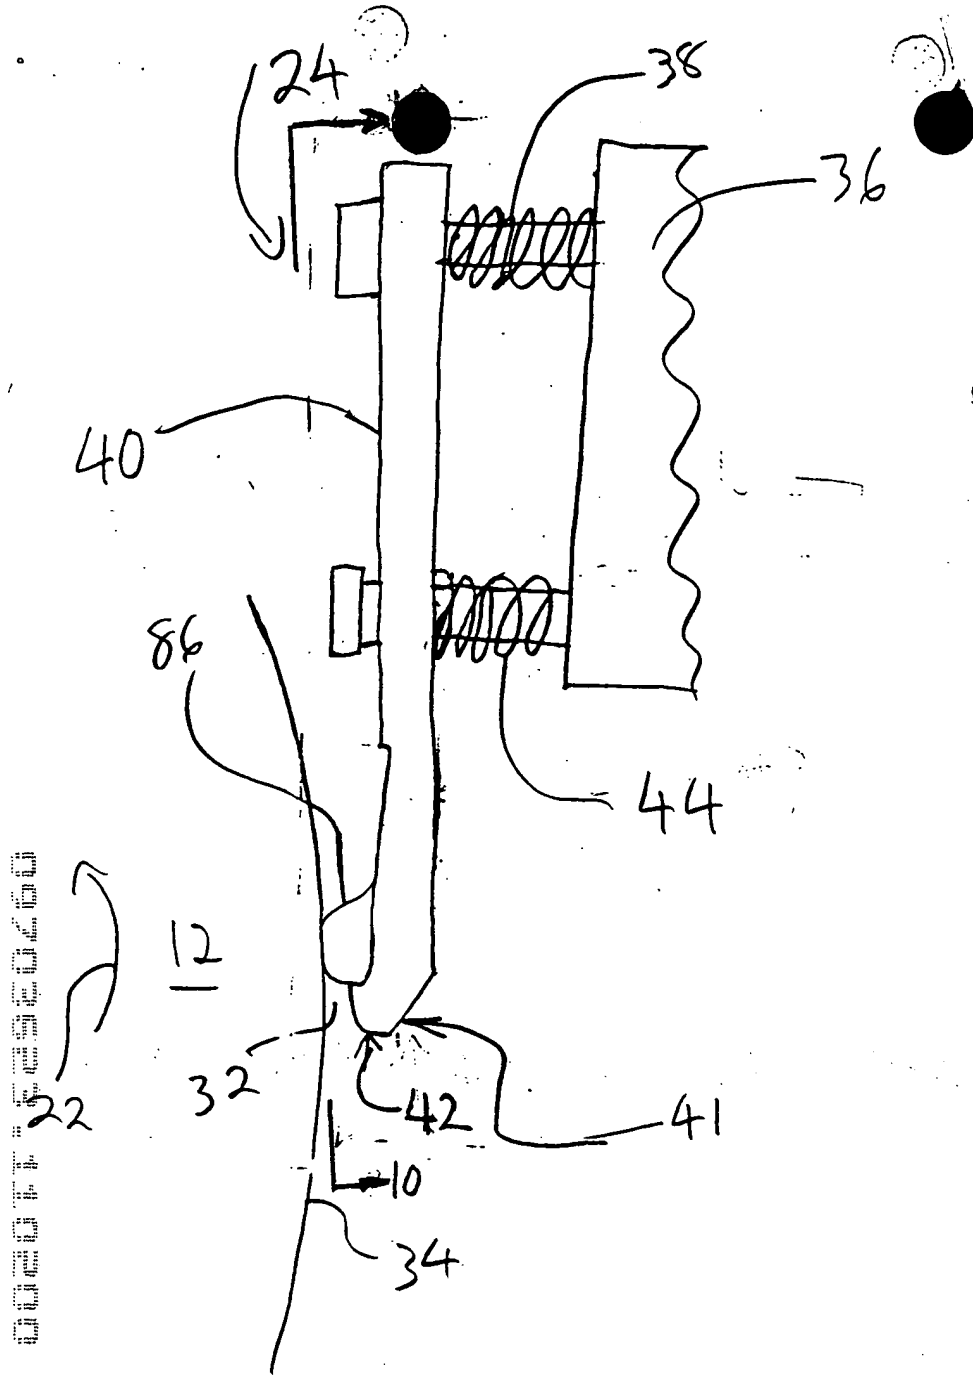

Fig. 9

A hand-drawn schematic diagram of a segmented strip assembly, labeled 24. The assembly consists of three rectangular segments, each labeled 40, which are joined together by a central horizontal strip labeled 41. Each segment 40 contains two hexagonal features, each labeled 38. The central strip 41 is shown with two horizontal layers, with the top layer labeled 86. Arrows indicate the direction of assembly or movement, with one arrow pointing towards the left and another pointing towards the right.
